220. -Mr. R. W. Falls, of the committee appointed by the Firemen's Convention, visited Baltimore yesterday, and conferred with severai of the officers of the 5th Maryland Regiment, in regard to their proposed visit to this city on the 221 inst. He reports that the sentiment of those he saw seems to be in favor of coming if proper railroad arrangements can be made. A meeting of the Executive Committee of the Regiment will be held to night, at which the whole Invitation Committee will be present, and some definite action will be taken. The Baltimore Evening News: "So our neighors of Alexandria have sent to the Fifth Regim at an invitation to visit the ancient city and participate in the celebration of the 22d of February. The News suggested over a week ago that masmuch as the Fifth was easting about or a place to visit on Washington's birth day, that it could not do better than to make an excursion to Alexandria, where quite a demonstration is to be made in honor of the anniversary. The members of the Fifth approved of the suggestion, as they do of all the suggestions of the News, and the people of Alexandria were only too happy at the prospect of having such an addition to their display. The Fifth will doubt less accept the invitation which will be formally presented by a committee from Alexandria tomorrew evening, and "our boys" will have the opportunity of creditably representing us among our Southern neighbors and brethren.

ALEXANDRIA MINERAL BUREAU .- The Washington Chronicle of this morning, says :-The mineral bureau, which was started at Alexandria some time since, and designed to show the mining resources of Virginia, has made plain the fact which was understood in a vague kied of way before, that the Old Dominion had all the elements necessary to cause her to take rank as one of the leading manufacturing States of the Union. It is to be regretted that some provision has not been made to transfer the specimens now on exhibition to Philadel phia, during the Centengial seasor. There is ne telling how much advantage might be derived from a good showing of the iron and coal resources of the State. If foreign capitalists could be brought to realize the value of the mineral deposits of Virginia, and the chances for bringing them to the surface cheaply, it would not be long before a reign of industry would begin, that would preclude the possibili ty I failur slike that of the Tredegar Iron Works recently.

THE WEATHER to-day has been clear, bright and warm, and this morning the blue birds were carrolling merrily in the trees around the city. The early bushes are budding, the spring flowers have commenced to bloom, and in some of the gardens even the busy bees have been improving the shining hours. The winds have certainly been tempered to the shorn lambs this winter, and the mild weather that has prevalled has prevented a great deal of suffering that ewing to the dull times and the scarcity of work, must have resulted had the season been accompanied with its usual snows and

THE 22D BALL.-Preparations are progressing rapidly for the ball on the night of the 22d in-t by the Alexandria Library and Sun Fire ompanies. Four of the five fire companies have already appointed reception committees, and the other will do so at its next meeting. A a meeting held, Thursday night, Osceola file of Red Men appointed M. Ruben, John K. Gray, John Natlor, Wm. Davis, and Charles Kawell, as a committee on the part of that

RELIEF HOOK AND LADDER COMPANY .-A called meeting of the Relief Hook and Ladder Company was held, last night, R. M. Laham in the chair and Park Agnew secretary. lesses A. M. Hall, Park Aguew, E R. Carin J. M. Buchanan and Edgar Warfield were appointed a committee to act with the com unitees from the other companies, in regard to the proposed ball for the benefit of the Alexandria Library. The meeting then adjourned.

Police Report. - Kate Martin, colored, or assault on another colored woman, was discharged on the payment of costs.

Frank Devaughn, arrested as a suspicious character, was released on promise to enlist and leave the city. Michael Marrissey, having served out his

time, was discharged from jail. Six lodgers were accommodated at the sta-400 house last night.

DISTURBANCE IN CHURCH.—A well known ha neal politician of this city, while inebriated, entered the Bulah Baptist Church (colored.) at night, and created a considerable sensation y calling the preacher, Rev. Clement Robinson, to order, and asking permission to make some remarks to the congregation. He was speedily ejected, however, and the services went on as usual.

Last night was another "corporation moonbight" night, and scarcely any of the street lamps were lighted. Those who were compelled to be out e mplain very much of the stumb. es and falls they had in the darkness.

HAMMOND BENTLEY REVIVAL MEETINGS. ASSOCIATED PRESS DISPATCHES. The Washington correspondent of the Baltimore Sun says of these meetings, now in prog-

ress in Washington: "Some or the novelties in the method of preaching and singing do not commend themselves to all the ministers, but those present expressed their desire to labor with the evangelists, not doubting that their efforts would work together for good. Among the ministers who have been present at the meetings are Rev. Mr. Dinwiddie aud Rev. Mr. Waugh, of Alexandria. It is expected that a large oumber of Sunday-school children from Alexandria will attend the children's meeting to-morrow.'

INQUEST. - Some boys while playing at the southern end of Royal street, this morning, found the body of a newly born mulatto infant, wrapped in some rags and placed under a bridge there. Coroner R. C. Powell held an inquest over the body this afternoon, and the jury, of which John Summers was foreman, rendered a verdict that the child was still born.

THE CENTENNIAL. - Several gentlemen of this city are engaged in getting up a party to charter a schooner to carry them to the Centennial Exhibition at Philadelphia. It is understood that the vessel can be anchored in the river directly opposite the Centennial grounds. No doubt the trip will be made a very pleas aut one.

HUMOROUS ENTERTAINMENT. - Von Boyle, the humorist of Washington, is to give an entertainment in this city in a few days for the benefit of Potomac L dge of O id Fellows. The Washington papers represent his performances there to have been emineutly successful and

Sr. Louis, Feb. 12. - Upon the opening of the Babcock trial this morning the cross-examination of J. W. Douglass, ex-Commissioner of Internal Revenue, was completed in a few unimportant questions. On the redirect the District Attorney presented an affidavit purporting to be charges preferred in 1873 by Lindsay Murdock, a Collector of Internal Revenue in Southeast Missouri. The charges were against John A. Joyce and John Me-Donald, respectively a revenue agent and supervisor. The envelope was endorsed by C. C. Suiffen, the President's private secretary, showing that it had been received at the Ex ecutive Mansion and referred to the Treasury Department. Another endorsement showed the reference to the Commissioner of Internal Revenue. Mr. Douglass could not testify that he had seen the affidavit in his office.

Boston, Feb. 12.-It has been definitely ascertained that Ezra D. Winslow is to-day in London, and it is probably that he will be arrested before night fall. Upon the discovery of his forgeries a committee of the Boston banks telegraphed to Mr. Spaulding, a banker Mr. Chipman, an uncle of the rope walker in Paris, to proceed to Retterdam and use all possible efforts to secure the arrest of the fugitive. SOMETHING NEW!

The undersigned would respectfully announce to the citizens of Alexandria and vicinity, that, having introduced their improved

into this place, they are now prepared to cleanse and renovate feathers in the most effectual manner. By a pressure of steam, and the way it is applied, together with the facilities for ventilating and drying which we have invented, we caim more effectually, and in less time, to renovate feathers than by any process ever offered to the public. Our process not only cleanses old feathers from all impurities, relieving their matted cohection, thereby increasing their bulk nearly one half, making them light and lively, clean and healthy, but also removes the disagreeable odor so common to new feathers, and

destroys all moths and the liability thereto. For further particulars and prices see bills which will soon be in circulation. Satisfaction will be guaranteed, or no charge will be made.

Parties desirous of examining the process are respectfully invited to call at our place of business, NO. 66 KING STREET, between the hours of 9 and 12 a.m., where the patentce or his agent will be found, who will take pleasure in showing how the work is done. Send in your orders and come and see the
